

## Environmental Policy

Enpar Sonderwerkstoffe GmbH is a manufacturer and stock holder of semi-finished products, based in Germany, providing material to a number of applications, including Super Alloys and Engineering Steels to the Power Generation, Petro Chemical, Offshore, Oil and Gas, Auto-Sport and Aerospace Sectors.

Enpar Sonderwerkstoffe GmbH is committed to continually improving the environmental performance of its operations and operating its business in support of the aims of this policy.

### Environmental aims:

1. To manage our activities, products and services with consideration for the environment
2. To ensure the company complies with all relevant environmental legislation and other requirements to which the company subscribes
3. To set and regularly review environmental objectives and targets
4. To prevent pollution, effectively use materials, water and energy on site
5. Minimize the creation of waste and maximize the reuse and recycling where practicable
6. To ensure employees receive appropriate environmental training such that they are competent to control the activities they are responsible for
7. To promote improved environmental performance through communication of our Environmental Policy and engagement with our key-suppliers and other interested parties
8. Communicate the policy to all employees and key-contractors.
